Frontend Developer with hands-on project experience and an intensive Intern/SIWES background. Skilled in building responsive, accessible, and user-focused web interfaces. Strong communicator, collaborator, and problem solver with a drive to learn and grow in real development environments.

Experience

July 2025 – Nov 2025

Frontend Developer Intern / SIWES Trainee | Algorithmic Explorer | Nsukka, Enugu State

- Built responsive UI components using HTML, CSS, Tailwind CSS, and JavaScript.
- Practiced React concepts, including component-based structure and state handling.
- Worked with Git and GitHub for version control, branching, and collaboration.
- Participated in debugging, UI/UX improvements, and optimization.
- Gained practical exposure to real development workflow and teamwork.

Skills

HTML • CSS • JavaScript • Tailwind CSS • React.js • Git & GitHub • Supabase • Responsive Web Design • API Integration • Version Control • Communication • Teamwork • Problem-solving • Time management • Attention to detail • Adaptability

Education

2022 – Present

Bachelor of Science – Computer Science | University of Nigeria, Nsukka

Projects

- Frontend Mentor Challenges – Completed multiple challenges focused on grids, responsive layouts, component accuracy, and UI structure.
- Calculator App – Functional calculator built with HTML, CSS, and JavaScript.
- Todo List App – Task manager with add, delete, completion toggle, and local storage persistence.
- Design Landing Page – Users can add design cards with images, text, and timestamps, including edit/delete functionality and Masonry.js layout.
- Facility Report Maintenance App (Ongoing) – Multi-role system (Reporter, Admin, Technician). Users can report issues with images. Built with HTML, CSS, JavaScript, Tailwind CSS, and Supabase backend.

Activities

Baking • Music & Playlist Curation • Racing Games • Comics/Mangas • Coding • Exploring Technology
